This home has 4 bedrooms with one bedroom split and perfect for an office. The master suite has two clothes closets and a remodeled bath with a huge shower. There are two large living areas and a high end kitchen with a Viking gas range and a dining area. There are tile and wood floors throughout, and the home has been recently painted. In addition, the garage was converted to an apartment with two large rooms, a full bath, and a full kitchen. There is an attached oversized carport and a workshop. The outside is great for parties and large gatherings with a large covered flagstone patio and a gas connection for a grill. The backyard is large and enclosed with a new cedar fence. There is also an outside shed, and part of the attic has been enclosed for storage with a stairway access.
